# ORGANIC PORTFOLIO

It was quite naturally that PROVA, as experts in sweet brown flavorings since 1946, was one of the first European flavor houses to offer organic flavoring solutions.

PROVA's flavorists created a comprehensive and original range of vanilla, cocoa, coffee and gourmet notes that is both organic and Fairtrade certified.

Combining PROVA expertise in terms of technology and formulation, this range of flavorings, which is available in powder and liquid form, fully meets the market's demand for naturalness, traceability and sustainable development.

## VANILLA
